

Introductory copy

*/*Copy below is just an example of how you can present the project to your team. Your intro has to be in your language and your way of communication.*/*

INTRO

Hello everybody! You know me how much I love to try new tools and do some research so here is our next project. :)

The project I found has the code name “New Theia” and it is basically to share a cause you care about and explain why and how everyone on the team should take action on this. A list with everyone’s names will show the turn of sharing the causes.

Here is a link to the brief of the project... [Link to PDF](#)

SIMPLE RULES FOR REMOTE LEADERS

1. Be honest!
2. Respect equally every person and his/her ideas!
3. Encourage and embrace mistakes!
4. Always put yourself in the other person’s place - understand their Why behind actions!
5. Do not argue, Learn to listen!
